To: Members of the Planning Committee

Mr W Binns

Mr R Guy

Mrs M McLean

Mr G Parkes

Mr M Short

Vice Chairman

and remainder of the Council for information

Mr B Uglow

Mr A Wade Chairman

Mr D Smith (ex officio)

Mr Jon Bennett (ex officio)

AGPLN362

28 July 2009

Members of the Planning Committee

are hereby summoned to attend the Planning Committee meeting to be held in The Grove, St. John's Street, Hythe on Monday next, 3 August 2009 at 7 pm

Yours faithfully

Clerk to the Council

AGENDA

1. Apologies for absence.
2. To note any declarations of interest made by Members in connection with an Agenda item. The nature of the interest must also be specified.
3. Public Participation Period.
4. Notification of any other urgent business to be raised at the end of the meeting.
5. Forthcoming events that could affect the communities within the Parish.
6. Planning lists: -

New Forest District Council

(a) Period ending 15 July 2009 – remainder carried over from 27 July 2009

(b) Period ending 22 July 2009

National Park

Applications received – 15 July 2009 to 21 July 2009 - none

7. Summer Recess – Delegated Powers.
8. Planning Appeal Decision – Site at Wellington Close, Dibden Purlieu.
9. Hampshire Minerals and Waste Development Framework – Consultation on Integrated Sustainability Appraisal Scoping Report (ISA).
10. Any other urgent business concerning the Committee.

HYTHE AND DIBDEN PARISH COUNCIL

PLANNING COMMITTEE

AGENDA NOTES FOR 3 AUGUST 2009

Item 7 Summer Recess – Delegated Powers

In previous years it has been agreed to delegate responsibility for commenting on weekly planning lists during August to the Clerk of the Council in consultation with the Chairman or Vice Chairman of the Planning Committee or the Chairman of the Council.

The planning lists will be circulated to all members so that they can have an opportunity if required to inspect the plans and make observations before comments are submitted.

Members are asked to consider these arrangements for this year.

NEW FOREST DISTRICT COUNCIL

PARISH LIST FOR HYTHE AND DIBDEN

APPLICATIONS RECEIVED

Period Ending: 15 July 2009

Observation Date: 14 August 2009

App No: 09/94299 ADV

Applicant(s): Domino's Pizza Group Ltd

Agent: Hattrell Ds One Architects Llp
1 Copthall House, Station Square, Coventry, CV1 2EQ

Proposal: To display: 1 x internally illuminated fascia sign; 1 x internally illuminated suspended window sign

Site: 1 THE MARSH, HYTHE SO45 6AJ

Case Officer: Miss K Pearce

Decision date:
1 July 2009

Appeal Ref: APP/B1740/C/08/2092863

Land at Wellington Close, Dibden Purlieu, Hampshire, SO45 4RL

- The appeal is made under section 174 of the Town and Country Planning Act 1990 as amended by the Planning and Compensation Act 1991.
- The appeal is made by Mr A Naylor against an enforcement notice issued by New Forest District Council.
- The Council's reference is EN/08/0384.
- The notice was issued on 14 November 2008.
- The breach of planning control as alleged in the notice is without planning permission, the siting of a steel container in the approximate position shown by a black cross on the attached plan.
- The requirements of the notice are remove the steel container from the land affected.
- The period for compliance with the requirements is one month.
- The appeal is proceeding on the grounds set out in section 174(2) (c) of the Town and Country Planning Act 1990 as amended. Since the prescribed fees have not been paid within the specified period, the application for planning permission deemed to have been made under section 177(5) of the Act as amended does not fall to be considered.

Decision

1. The appeal is dismissed.

Reasons

2. The appellant has referred to the Town and Country Planning (General Permitted Development) Order 1988 (GPDO). Notwithstanding that the GPDO date is now 1995, the appellant's premise is that express planning permission is not needed for the container as it benefits from permitted development rights under Schedule 2, Part 4, Class A of the GPDO. These are, subject to certain conditions "the provision on land of buildings, moveable structures, works, plant or machinery required temporarily in connection with and for the duration of operations being or to be carried out on, in, under or over that land or on land adjoining that land".
3. The appellant does not say what operations are to be carried out. However, from the evidence before me it appears that there might have been an intention to carry out some woodland management and drainage investigations. This being the case there is nothing to show that the said operations have commenced or are about to commence. In fact, everything indicates that since the container was placed there in June 2008, no such works have taken place. When I visited the site there were no signs of any recent, or current, site activities. The container also had vegetation growing up around it which further points to the fact that it has not been used.

4. In addition, the appellant has not shown why a container of this size and for this length of time is reasonably required. To my mind the container's size is well beyond what might be needed for some forestry operations or other site works. Also, from photographs of what is inside the container, its contents do not bear any relationship with keeping implements that might be associated with any such works.
5. On the basis of the above I am satisfied that the container is not genuinely required temporarily in connection with any tree operations or drainage investigations on this site or any adjoining land. As such it does not benefit from the permitted development rights cited by the appellant. Therefore the appeal fails and the enforcement notice is upheld.

Dear Mr Shimpe

**Hampshire Minerals & Waste Development Framework:
Consultation on Integrated Sustainability Appraisal Scoping Report (ISA)
13 July – 17 August 2009**

Hampshire County Council will shortly be considering a proposed consultation on revisions to a small number of policies in the Core Strategy - an important part of the Hampshire Minerals and Waste Development Framework (HMWDF). The HMWDF is being produced in partnership with Portsmouth City Council, Southampton City Council and the New Forest National Park Authority.

However, before the County Council decides on the form of the consultation we have to be sure that all our information and evidence is correct, including carrying out the necessary research and investigations. This preparatory work includes the Integrated Sustainability Appraisal (ISA) Scoping Report, which looks at a range of environmental issues such as potential flooding areas.

The ISA - a process that combines a Sustainability Appraisal and Strategic Environmental Assessment - is made up of the Scoping Report and accompanying Joint Baseline Report (2009). The Scoping Report sets out Hampshire's approach to undertaking the ISA of the policy revisions. Although a supporting element of the planning process, the ISA plays an important role in assessing the future options for minerals and waste.

Consultation

A five week statutory consultation on the Scoping Report begins on Monday 13 July, with the closing date for responses 5.00pm on Monday 17 August 2009.

Please note that this consultation is not about policies but the information background for the Core Strategy. The County Council will provide an opportunity to comment on the Core Strategy later this year.

We are required to consult statutory consultees (Natural England, Environment Agency and English Heritage). However, comments from all of our stakeholders would be welcome – particularly on the information on which we intend to base our assessments.

The documents outlining the role of the ISA are available on our website (see *Latest News* section or the *Core Strategy Revision* page) at www3.hants.gov.uk/planning-policy.htm. Other supporting and background information is also included on these web pages. We are encouraging online responses but other written responses are welcome – using the address given below:

Planning & Development
Planning Policy
Environment Department
Hampshire County Council
The Castle
Winchester
Hampshire SO23 8UD

We have developed a list of seven questions to help focus your consultation responses, but please feel free to comment on any aspect of the information in the Scoping Report and the accompanying Joint Baseline Report.

Background

Following the legal challenge by Associated British Ports (ABP) to the Core Strategy in 2007, three of the policies relating to Safeguarding and Wharves and Depots (S13, S14 and DC18) have been quashed. The County Council and our partners are now required to revise these policies.

A review is also underway on the regional apportionment of sand and gravel. This will have implications for the Core Strategy and subsequently the Hampshire Minerals Plan, as it will change the amount of sand and gravel the county has to identify for extraction. The extended period of the Regional Spatial Strategy (also known as the

South East Plan) to 2026 affects the apportionment and so we need to change the policies which refer to sand and gravel (S8 and DC15).

Core Strategy

Since the Core Strategy was adopted in 2007, there have been a number of other legislative changes such as the publication of the South East Plan and the supplement to Planning Policy Statement 1: Planning for Climate Change. These publications and other factors have highlighted the need to clarify and update the Core Strategy, including revising the Sustainable Minerals and Waste Development policy (DC1) as well as possibly adding more policies.

We are not carrying out a full scale review of the Core Strategy, but making changes to some of the policies and wording.

If you have any questions regarding this consultation, please do not hesitate to contact the Planning Policy Team (Tel: 01962 845517 / 01962 845515) or email: planning.policy@hants.gov.uk).

Yours faithfully,

Melissa Spriggs
