

October 2015

Councillor Peter Armstrong

Update on Netley View Estate

The District Council work is progressing well. They have now completed 54 (2 more than originally reported) of dropped kerbs/driveways and fences. The additional fencing work has now started. The figure for this is now 84 (previously 70).

One of the three new car park areas is due to start as this report was being prepared and there are now other planned works recently agreed at the last district project group after meeting with District Officers on site.

I am pleased to report the Netley View Residents' Association produced their first newsletter from grant money they received.

Residents' Concerns and Issues

More fencing enquiries, correspondence regarding ongoing work on Netley View, disputes with companies (one which had been ongoing for 5 plus years which was amicably resolved by both parties with a couple of phone calls) and various other local matters.

During this last month I attended a Presentation Skills Workshop and received more Planning training.
